JFK In My Life

JFK is a special experience for me. Every other summer I have done the common things, but this year it was completely different! I met people from all around the world and they told me about their families and regular days back home. I made new friends, I learned things that I will never forget and I faced up to problems and situations that I had never imagined before! Being at JFK has been one of the most exciting holidays ever and I will remember it forever!

Summer Fun

JFK, three letters that don't mean only John F. Kennedy they mean having fun in summer. With all these amazing counsellors, chefs and very nice kids it's impossible not to have fun. Even language classes are cool!! The food, OMG, it is so delicious. I wouldn't trade anything for this food. Now I am looking forward to the interest groups. Oh sorry, I didn't explain to you what interest groups are. You will have to choose 2 amazing activities like 3-on-3 basketball, team sports, baking and a lot of others. And you will have them everyday for one and a half hours. But before you sign up for interest groups you will have even cooler activities such as river rafting, oh and of course, the international rescue day. I forgot something, guess what we are going to have every Saturday...shopping in Gstaad and Interlaken. The camp will give you money and after this, we have movie night!!! I am definitely going to come next year. I love this camp.

My Holidays

Usually for my summer holidays, I go to Italy. This year I have spent only 1 month in Italy then I went to summer camp in Switzerland. I am in a bedroom with Sendem and when I wake up I can see the Alps from my window. I have English lessons every day. I am eating really tasty food. For my interest groups, I have chosen jewellery making and baking. Today I will go to the pool party. I also will visit Interlaken this weekend. There are children from all the world here. I miss my mother, but it is really interesting here. I am having a good time. Yesterday was such a good day. I baked brownies and cookies. Today we are going to eat the things we baked. At our English lessons we are reading a very interesting book called, «My Side of the Mountain». Here we are playing very cool games. Today we have made a bride's dress for Ms. Christie. This dress was made from toilet paper. I think it is great here!

- River Rafting
- International Rescue
- Horneggli to Rinderberg Hike
- Wandflüh Summit
- Rock Climbing at the Gastlosen
- Shopping in Interlaken
- Aquaparc
- Pool Party
- Disco

Favorite Activities

For me, the best activities were rafting and rock climbing. Rafting was very exciting because the rapids were very big and it was my first time. Then it was a very long journey and it was tiring. Somewhere at the end we passed a small waterfall. The boat was moving very fast. It was fantastic! After that one day we separated into two groups. One group went rock climbing and the other went hiking. I was in the group which went rock climbing. While I was climbing I looked down and it was very high. Then I understood I didn't have to look down. It was very scary when I was very high and I didn't know where to step to go higher. At the end when I reached the top I was very happy. I liked the way down too. I had to lean back and slowly go down. It was very exciting!

Favorite Excursion

My favourite excursion with JFK is when we go to the Aquaparc! When we go to the Aquaparc we all have a great time because there is a big variety of water slides. Some with a lot of turns, others that go very fast but the best, for me, is the toilette! I love going to the Aquaparc, I always enjoy myself!
